Custom Email Domains

OVERVIEW

- Send emails through Clientshare Pulse from your **individual** company email address.

- All emails generated from Clientshare Pulse (*except verification-based emails*) will be sent from **your domain.**

HOW YOU BENEFIT

Whitelisting requirements reduced

Customers with firewalls / secure email configuration settings don't need to whitelist Clientshare's email domain.

CX customisation increased

All emails from Clientshare Pulse will be sent from your individual email address.

Customer engagement increased

An increased delivery rate is likely to increase review open rates & feedback from customers.
